DX/SWL/MEDIA PROGRAMS update Nov 3:
http://www.worldofradio.com/dxpgms.html

WORLD OF RADIO SCHEDULES updated:
http://www.worldofradio.com/radioskd.html

WORLD OF RADIO HITLIST

Hi Glenn, my latest Hitlist update:
https://www.w4uvh.net/hitlist.htm

1) Updated UTC offset notations for change to DST: Cuba (R Habana Cuba, R Progreso, R Rebelde), USA (R Martí, VO America)
2) Germany - R Sylvia: new entry onto hitlist (Internet station with regular monthly broadcast via Channel 292)
3) India - Akashvani: Revised link to daily "Spotlight" programme via the daily broadcast podcast link. (Thanks to Rich Cuff in WOR iog mail list)
4) Romania - REE: Added additional links to frequency information in other languages in addition to the existing links for English and Romanian (i.e. French, German, Italian, Spanish) for ease of reference.
5) Scotland - R Six Int: New entry onto hitlist (Internet station with regular monthly broadcast via Channel 292)
6) Spain - REE: Updated link for frequencies to new B-24 page (Thanks to Gavin Waters)
7) USA - AWR: Updated text entry for AWR Wavescan podcasts to show as archive programs.
8) USA - Wavescan: As the previous "AWR Wavescan" is now just "Wavescan" with no links to AWR, I have added this new entry showing new link to current Wavescan podcasts (plus the link to the old AWR Wavesan podcast archive)
9) USA - WRMI: Updated labels for links to frequencies & programmes for B24
The next update is scheduled for end of November. Best wishes and 73, Alan Roe, Teddington, UK

** ALGERIA. 17600, Oct 31 at 0703, JBA carrier, presumed Ifrikya FM, just signed on; but when do they go off? (Glenn Hauser, OK, WOR)

** CANADA. 680, Nov 4 at 0745 UT tuneacross, immediately hear CJOB ID and Winnipeg weather: hi 7, lo -3, windchill -8. Like so many Canadians, obviously not on night pattern, supposed to be extremely direxional NNE:
https://radio-locator.com/cgi-bin/pat?call=CJOB&service=AM&s=F&h=N
while daypat also favours NNE but less so:
https://radio-locator.com/cgi-bin/pat?call=CJOB&service=AM&s=F&h=D
yet despite my E/W longwire it dominates (Glenn Hauser, OK, WOR)

** CANADA. 15034 USB, Nov 2 at 0136, Trenton Military on much later than usual here and not on 6754, with Keflavík 0130 conditions (Glenn Hauser, OK, WOR)

** CHINA. 9415, Nov 4 at 2318, Vietnamese keeps mentioning ``Chung-kuo``, S9+20/30. It`s CRI via Beijing 572 site, but why so good over here? HFCC shows 500 kW at 193 degrees apropos for Viet-nam and not close to directly opposite (Glenn Hauser, OK, WOR)

** CHINA. 11640, Nov 1 at 0659 one of very few signals on band, S6/S8, unknown language, 0700 unusual 3-pip timesignal and talk, sounds like Vietnamese; but Aoki & EiBi agree it`s CRI in Cantonese from Jinhua 831 site. That`s east/central near the coast. HFCC shows 500 kW at 59 degrees for CIRAF 44NE and 45N, i.e., away from Cantonese area of

China but USward beyond NE China and Hokkaido (Glenn Hauser, OK, WOR)

** CHINA [and non]. 11670, Nov 4 at 1551, two Chinese sigs mixing, S7/S9. EiBi shows CNR1 jamming vs RFA PHILIPPINES. 11765, much stronger and clearer Chinese only, i.e. CNR1 jamming vs no RFA Kuwait (Glenn Hauser, OK, WOR)

** CUBA. 5025, Nov 6 at 0728, R. Rebelde music S9+45. Has been reliable lately in contrast to RHC hard to find on any frequency (Glenn Hauser, OK, WOR)

** CUBA. 15230, Nov 5 at 1553, JBA carrier direct. Now, ANY signal from RHC is notable; at 1558 into Georgia SDR, RHC IS, suptorted modulation, S7/S9 into Georgia SDR; off by 1601 recheck (Glenn Hauser, OK, WOR)

** CUBA [and non]. 9490.000, Nov 6 at 0207, new frequency for R. República via ISS, FRANCE, as measured into UTwente which is accurately calibrated. In past has always been significantly skewed plus, by maybe 20 Hz but had not measured it lately. Must have changed transmitter or fixed the bad one. EiBi shows 9490 RR is Fri-Sun only at 0100-0200! Surely it`s daily, as in Aoki but still with wrong time 0100-0200. During EDT was at 01-02 UT, but evidently shifted an hour later for EST season. Even RMI skedgrid still shows 0100-0200 but daily on 9490.

But ALSO UT Tue-Fri at 0200-0300 on 5800 WRMI-10 from System D. At 0230 I check 5800 into Georgia SDR, as it concludes `Encuentro Informativo` -- but NOT // 9490. Then announces sked as Mon-Thu 10-11 pm on 5800, and Fri-Sun at 9-10 pm on 9490; repeated at 0253 on 5800. So their own announced sked is wrong, as they are on both frequencies now at same hour on a Tuesday/UT Wednesday! Certainly not RAE Argentina on 5800 at 02-03 as shown on the transmitter grid!

Checking 9490 into Georgia SDR at 0258, S9+40/55! At 0300, ID and pulls plug on 9490, but a much weaker and hummy carrier remains on air, only S9/+10 into Georgia. At 0300, 5800 has gone on to R. Praga in Spanish, NOT accounted for on WRMI skeds, showing it on 9955 System B only, while xmtr sked for 5800 shows at 0300 Freedom Synergy Radio --- NOT.

On 5800 there was some continuous clickery, I guess rather ineffective jamming, but not the usual Cuban pulsing noise. It`s audible from 5787 to 5814, so centred on 5800. On 9490 into UTwente there is similar clickery, like OTH radar, extending from 9458 to 9490, thus evitable by tuning to 9490 USB - 32 Hz wide and stronger toward the centre of that span. Earlier, had added extra hour certain days of week. Anyhow a rather confusing situation currently.

R.R. is sponsored by the Directorio Democrático Cubano, not to be confused with another DDC, Diario de Cuba which I sometimes link to for The Other Side: https://diariodecuba.com/ (Glenn Hauser, OK, WOR)

** FRANCE. 21580, Nov 6 at 1852, OSOB sounds French at S1/S3; yes, RFI at 1600-1900 for Africa, the first hour in Hausa (Glenn Hauser, OK, WOR)

** GERMANY [non]. Andy, Engineer at SW Radio, Germany, says they have curtailed 6160 usage not only because of China on 6160, but also on 6165. And I wondered where the RTTY on 6164 is coming from: ``Glenn, 6164 RTTY (FSK) 200 Hz shift is regularly coming from Kaliningrad (part of Russian enclave) north of Poland - Europe is very small you know. Every year it's on 6164 from around 1st of September to the 31st of

October for 2 months. Seems to be silent today. However starting again on 1st of March until around 30th of May next year. They seem to have a two months schedule. Might pop up these days around 6150 kHz. Need further investigation. Andy`` (Glenn Hauser, OK, WOR)

** KALININGRAD. 6164 FSK: see GERMANY [non] just above

** KOREA NORTH. 9874.91, Nov 4 at 0737, JBA music. EiBi shows it`s VOK in Russian on ``9875``. EiBi list is a great resource, but does not always bother with specifying offfrequenciness, even when habitual. On 31m does show three splits: two Brasil, one UAE, yet to only one decimal place. Some `DXer`? complains, ``just round them off`` -- NO, such details are significant aspects of a station! and editors must not counteract our trouble in measuring them (Glenn Hauser, OK, WOR)

** KOREA NORTH [non]. 11510, Nov 5 at 1555, talk in Korean, S7/S9 direct. Into Georgia SDR at 1559, S6/S8 with no ToH break. It`s RFA via Tinang, PHILIPPINES at 1500-1700. Another example of us getting aimed at 21 degrees far beyond target. No jamming audible. EiBi shows Dengê Gel and/or Turkish jammer could also be here or anywhere up to 11550 before 1600 (Glenn Hauser, OK, WOR)

** MEXICO [and non]. 800, Nov 3 at 0700, distorted noise atop KQCV OKC the worst heard yet, from XEERG, maybe with auroral enhancement. The huge het upon 740 KRMG from XEQN on the minus side is also worse than usual (Glenn Hauser, OK, WOR)

** NORTH AMERICA. Missed any Hallowe`en pirate activity, but quite a bit the following night UT Nov 2 between 0128 and 0134, none well enough to get anything out of the music, but trying to correlate with HFU reports, FWIW:

6960 AM, S8/S9, music, presumed Ball Smacker Radio on regular sked. https://www.hfunderground.com/board/index.php/topic,136101.0.html

6930 AM, S7/S8, music. B-Side Radio, per: https://www.hfunderground.com/board/index.php/topic,136102.0.html

6925.0 AM, S7/S8, music. Reported as Outhouse Radio with SSTV ID but on USB: https://www.hfunderground.com/board/index.php/topic,136105.0.html

6920 USB, S8/S9, music. Lots of Japanese titles per Shazaaming, unID: https://www.hfunderground.com/board/index.php/topic,136104.0.html

6849.9 AM, S5/S6, music. Liquid Radio: https://www.hfunderground.com/board/index.php/topic,136106.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 11529.96, Nov 2 at 0135, S5/S6 music JBA, from Hikari FM (Glenn Hauser, OK, WOR)

** OKLAHOMA. 960, Nov 3 at 0701 UT, dead air again from local KGWA Enid. Too late to try to DX thru it despite its just becoming 1 am instead of 2 am (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 27184.52 AM, Nov 2 at 2013, Enid CB pirate, S9+20/25, JBM but // 105.5, usual inexplicable relay of K288FX translator of ``Kay-Love``, KYLV 88.9 OKC. Not another circa 27225 this time (Glenn Hauser, Enid, WOR)

** PUERTO RICO. 391 MCW kHz, Nov 1 at 0707 UT, DDP, the ND beacon at San Juan, is the only one I can copy vs noise level except for some nearby OK & KS on groundwave (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Friday Nov 1 at 2302, token English from SNR does not fail to appear, S9+5/10 into UTwente, not so good with storm noise. Music, into about a festival? Skipping news. 2316 I notice ACI from 9695, listed as CRI in Japanese. Other frequencies not checked nor reception in North America (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Mon Nov 4 at 2259, REE Spanish S9+30/40 direct with contact info, URL for Ayuda/Víctimas. 2300 accurate timesignal, s/on token English, intro topic, this is the 100th anniversary of some museum, so will interview curator of 100 pictures for the occasion, but first, 2301 news starting with protests vs monarx and PM about late red alerts warning of the flash flooding in Valencia which killed hundreds, complete with location yelling. At 2314 check other // frequencies: > 12030 = 17715 > 17755 (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Nov 6 at 0732, incredibly, the first place I hear *rump`s victory speech live is here, VG direct, with Spanish voice-over translation. Could this be REE? Yes! Also on weaker // 12030, JBA on 17715 and JBA carrier on 17755. These are the regular REE frequencies for the broadcasts normally ending at 0300 weekdays on 9690 & 17715, 2400 on 12030 & 17755. I suspect they have all stayed on air all-night for US elexion coverage. Probably from an RTVE domestic network. However, the program sked for Hoy = miércoles at 0800-0904 local, whether or not it`s on SW, shows `Informativos -- Las Mañanas de RNE - Josep Cuní`.

Surely a one-time expansion, but what collisions could this have caused? HFCC shows REE 9690 registered only until 0400 weekdays, but nothing else before 1100. 12030 could have 5 kW RDI, ELB, HOL, as early as 0600. On 17715, nothing else before 1100. On 17755, nothing else before 1330.
BTW, 7355 & 7435 R. Martí with otherstuff at 0740 (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Wed Nov 6 at 2300, NO signal from SNR to N America, direct nor into UTwente; but 12030 backwards to ME arrives sufficiently direct with Radio 5/REE ID in passing, but stays in Spanish instead of English! 17715 is a JBA carrier. Something`s notright at Noblejas. At 2310 into Maryland SDR, still no 9690, but 12030. Per sked the 0000 local Thu show is `Doble Hélice` about science, not English. Something`s messedup at Madrid (Glenn Hauser, OK, WOR)

** TURKEY. 5960.004-, Nov 1 at *2259, VOT IS, not off the air, 2300 s/on English as if it`s 1330 on 13635. Something`s always awry at Ankara. S9+40/45 into UTwente with constant rumble, seems self-inflicted but also CCI from China. Not always, but this time names program segments upcoming: `Weekly Analysis`, `Turkish Folk Tales`, and `That`s Why`. After olds, 2312 `Weekly Analysis` by John ---, of some Foundation about ? and ? and economic research, on what will be Iran`s next move in the Hezbollah/Israel/Lebanon conflict. 2317 music. 2323 TRTVOTVorld.com promo, music. 2327 `Turkish Folk Tales`. 2336 music. 2340 ``always-by-your-side`` promo. 2341 `That`s Why` with the heavy accent, something about Ataturk. 2352 ``with-you-every-hour`` promo, s/off as if it`s the 1330 on 13635. Something`s always awry at Ankara. 2353 IS to 2355* uncovering Chinese (Glenn Hauser, OK, WOR)

** TURKEY. 5960.003+, Nov 2 at 2258, VOT not off the air, IS at S9+30/35 into UTwente. 2300 TS and s/on as if 1330 on 13635. Something`s always awry at Ankara. Annoying continuous hrumble and CCCCCCI from PBS Xinjiang, Urumqi, East Turkistan, standard denunciation. 2301 into olds. 2314 music. 2318 ``with-you-every-hour`` promo. 2323 `The Energy Agenda` with statistix about sea temperatures

rising, effects on hydro power. 2329 music. 2334 multi-lingual ID filler reel. 2336 music. 2340 `Turkey`s Geomarked Products`, hard to understand topic. 2342 music. 2346 ``always-by-your-side promo. 2347 music ... (Glenn Hauser, OK, WOR)

** TURKEY. 5960.003+, concluded from previous report, VOT English, Nov 2 at 2350 via UTwente, TRTVOTVorld.com promo. 2353 s/off as if 13635 from 1330. Something`s always awry at Ankara. 2354 IS to 2356* uncovering the CCCCCCI (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 9610, Sun Nov 3 at 2147, VOT English, only S7/S8 weak with clickery and ChiCom CCI into UTwente: I was trying to catch a prepeat of `Letterbox`, but insufficient (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.003+, Sun Nov 3 at 2315, VOT English not off the air, S9+30/40 into UTwente atop the CCCCCCI, also with own? humroar, sports segment ending the olds by Efsun the accentuated who is the `live` announcer this time, but where is `Letterbox`? 2320 music, 2325 more music, 2330 `Weekly Analysis`, I think a repeat, 2334 ``always-by-your-side`` promo. Finally! 2335 `Letterbox`, this time presented by Efsun. 1) Christer Brunström, Sweden, quite a regular, this time with a question about whether VOT is really adding Norwegian as mentioned previously? Answer seems waffling, at least not yet. 2) Chris, Canada, topic? 2338 music break already! 2341 3) West Bengal, subject? 2343 already another music break. 2345 talk about what? 2349 closing. 2350 headlines. 2352 s/off. 2353 IS to 2355* uncovering China. It seems that each rotating L`box presenter does it in a very different style. With Efsun, besides being hard to understand, it`s late, shortened, gets to only 3 or 4 `letters`, and music padded. We miss Halil! (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.016, Nov 4 at 2258, VOT not off the air, IS & IDs, S9+10/20 direct but insufficient vs HSNL and also fluttery. At 2335 into UTwente when measured, VG S9+30/40, well atop some CCI, `The Energy Agenda`. 2339 music. 2342 `That`s Why` again today with Efsun the axentuated, ``the wonders of numbers``, but I can`t follow exactly what ``impact on daily life``. 2350 headlines and s/off. 2353 IS. 2356 restart IS with German IDs. 0000 Nov 5 s/on German; chopoff by 0003 or 0004 uncovering the CCCCCCI. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960, Nov 5 at 2305, NO signal from VOT English, something`s always erroneous at Emirler, only the Chinese in clear. Then I check the 2130 frequency, and there it is! Running overtime on 9610+ but chops off at 2306* a few sex after I intune, uncovering another ChiCom. So back to 5960? Not immediately. But by next check 2322, now 5959.999+ is on, all as monitored via UTwente, S9+30/40. I am not paying close attn since Efsun the axentuated is on again, but `That`s Why` until 2326, music. 2330 ``Always-by-your-side`` promo, music, and until 2341 `Weekly Commentary`, music. 2345 `Turkey`s Geomarked Products`. 2348 ``with-you-every-hour`` promo, music, ``a-b-y-s`` again? 2352 s/off as if the 1330 on 13635. Something`s always awry at Ankara. 2353 IS. 2356 re-start IS with German IDs. 0000 Nov 6 s/on in German, etc. and still going extraneously at 0018+. We hear same program themes as during English, such as 2319 concluding ``Warum?`` rather than ``Das ist Warum``. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.004-, Wed Nov 6 at 2300, JBA carrier direct from VOT. At 2311 into Maryland, S4/S7; at 2313 into UTwente when measured, S9+30/35 and atop 6CI during olds. 2316 music. 2317 `Review of the Turkish Press`. 2319 `Unexpected --- something` with Efsun the axentuated; all I can understand is the subject, electro-shock therapy. 2330 ``with-you-every-hour`` promo, music. 2335 `The Middle East and Turkey`. 2340 TRTVOTVorld promo. 2341 `Sports Panorama`. 2349

``always-by-your-side`` promo, music. 2353 s/off for 13635 at 1330. Something`s always awry at Ankara. 2353.5 IS to 2355.5* chop uncovering the ChiCom (Glenn Hauser, OK, WOR)

** U K Q O B G A N I. 11253 USB, Nov 2 at 0635, VOLMET by British-accented YL voice, bot? Strange mixture of metric and English units to be understood but not always specified, one group applied to ``Midlands``. S5 vs noise level of S3. EiBi shows RAF Volmet Military 1 from site ic = ``one of: Inskip (Lancashire) 53N50-02W50 / St.Eval (Cornwall) 50N29-05W00 / Crimond (Aberdeenshire) 57N37-01W53``, while Klingenfuß 2022 merely puts MVU in London (Glenn Hauser, OK, WOR)

** U S A. 6994 USB, UT Sat Nov 2 at 0125, USAF MARS net, announcements about upcoming broadcasts(?) on this frequency and 11121.0, both repeated time after time for 15 Nov at 2320z, and 16 Nov at 0100z, 0120z. ``Air Force MARS military support squadron`` and off. Missed the NCS callsign and no check of 11121 now (Glenn Hauser, OK, WOR)

** U S A. 8992 USB, Nov 4 at 0731, US military crypto message is fonetikaly underway, sked 0730? with usual echo implying more than one transmitter site, but I`m not so sure of that. They seem to want to make it less than clear copy for training purposes. The key repeated several times is C6TRLB, and then the longer message starts with same, not copied this time, but checked for //: yes, also on 15016 USB, strongest on 4724 USB. Despite several repeats, could not understand the closing tactical ID, ``This is ----, out`` (Glenn Hauser, OK, WOR)

** U S A. 26110 NBFM, Nov 2 at 1533, no signal from KMK282, TV auxiliary which I routinely tune for almost daily at random times, first chance to check once I receive this from Terry Krueger, NW FL: ``KOVR Sacramento CA coming in well from 1504Z tune in with local morning news/weather patter``. Not heard here for months and still not, off already and/or I`m too close for F2 rather than sporadic E skip (Glenn Hauser, OK, WOR)

** U S A. 26110 NBFM, Nov 6 at 1854, JBA talk, presumed KOVR aux KMK282 Stockton/Sacramento. Later, I see this report on the WOR iog: ``I checked for KMK282 NFM 26110 KHz at 1810 UT (11/6) and found a signal peaking around S8 with deep fades. It stopped transmission for a minute or so, but was back on at 1814 UT. I'm only getting a word or two between the deep fades - "hanging out on the patio", "aspect", "we have", "if you are in charge of the beer situation", "cheese", "we are so excited", "nonprofit", "Good day Sacramento", etc. The signal appeared to be slowing increasing up to 1827 UT and then the off at 18:27:21 UT or so. It was back on again at 1830 UT. They were talking about Trump at 1830. Doug White, KA5ETS, Carrboro NC, AirSpy HF+Discovery using 53' vertical with around thirty 25 ft radials (and three 50 ft radials)``

Should not be that hard for me to hear it well like I used to, only need a sporadic E MUF of 27+ MHz in the right spot between. No doubt it`s single-hop F2 to NC (Glenn Hauser, OK, WOR)

** U S A. 28216+, Nov 3 at 2305, ID ID ID N7MA and more repeated, presumably referring to Idaho; but not in WGB roster on any frequency. QRZ.com: ``N7MA USA flag USA, MARK T AVAKIAN, 24443 E DOYLE RD, CATALDO, ID 83810, USA --- My 10 Meter Propogation Beacon at Rose Lake transmits on 28.2165MHz at 5 watts. It's pretty much always on with a couple of deep cycle batteries for power. The transmitter is an old Realistic HTX-100. The antenna is currently a dipole. The keyer is an ID-O-Matic by N0XAS. The receiver in the HTX-100 smoked, literally, years ago but the transmitter just keeps on going. I have a small fan in back of the radio to keep things a little cool. For me part of the fun of having the beacon is playing with antennas. So far it's had a

loop, dipole, and verticals 8', 17', 31' and 120' long. Bill, WJ5O is sort of the USA Beacon Guru. His website has everything you've ever wanted to know about beacons and then some. http://www.qsl.net/wj5o/ I really like knowing if the beacon is getting out and to where, so please drop me a email or QSL if you happen to hear it.`` (Glenn Hauser, OK, WOR)

** U S A. 17700, Nov 6 at 1846, S9+20/30 open carrier, no doubt VOA Grimesland warming up for French to W Africa at 19-20 only. Is this kilowastage really necessary? Might as well modulate it with something useful, like English (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2266 monitoring: confirmed UT Thursday October 31 at 0130 on WRMI 5010, S9/+10 into Bonaire SDR.

Also confirmed Thursday October 31 at 1735 the 1730 on SW Gold Radio, Germany, 3975.004-, S9+5/15 into UTwente; and no longer on 6160 which is open but with ACI from 6165 China, 6164 RTTY.

WORLD OF RADIO 2267 contents: *Alaska, Algeria, (Armenia), (Ascension), Brasil, *Canada non, China, Ethiopia, Europe, Germany, India, Indonesia, Korea South non, Kurdistan non, *Madagascar, Myanmar, Netherlands, North America, Perú, *Philippines, Poland, Puerto Rico, Russia, Solomon Islands, *Spain, (Taiwan), Tibet, *Turkey, UK and non, USA, Vietnam; propagation outlook; SWL Fest 2025 dates - (countries mentioned along with others not in order) *B24 schedule info

WOR 2266 available from 0047 UT Friday November 1:
(mp3 stream) https://www.w4uvh.net/wor2267.m3u
(mp3 download) https://www.w4uvh.net/wor2267.mp3

** U S A. WORLD OF RADIO 2267 monitoring: confirmed Friday November 1 at 1300 on WRMI 15770, S6/S7 direct following music but no ID: first day for NEW transmission, which becomes the first SW broadcast anywhere. From next week before 7:30 am CST, when I much prefer to be asleep, will appreciate others reconfirming this if convenient.

Also confirmed Friday November 1 at 2130 ex-2030 on IRRS SW via AM Italia, 1322.995, S9+5 into UTwente.

Also confirmed Friday November 1 at 2200 on WRMI 9955, S9+20 direct but undermodulated, and tough copy vs local noise level. From next week: 2300.

Also confirmed Friday November 1 at 2336 the 2330 ex-2230 on SW Radio, Germany, 3975.003+, S5 into UTwente. Next:

0300 UT Saturday WTWW 5085;
0930 UT Saturday WRMI 9455 to WNW [has been off air];
1530 UT Saturday SW Radio, Germany 6160;
1830 UT Saturday SW Radio, Germany 3975;
1930vUT Saturday WA0RCR 1860-AM [1900/2100];
2300 UT Saturday WTWW 9475 [suspended?];
0000 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0500];
2000 UT Sunday IRRS 1323-Italy;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 7570 to NW [or 7780, last 2 weeks];
0030 UT Monday WRMI 7780 to SW;

[USA timeshifts start here]
0400vUT Monday WBCQ Area 51 6160v to WSW;
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Tuesday IRRS 1323-Italy;
0030 UT Wednesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2267 monitoring: confirmed UT Saturday November 2 at 0300 on WTWW 5085, after T2P, Ancient Word Radio and ID; followed 0329 by some music until 0331*. From next week: 0400

Also confirmed Saturday November 2 at 1830 on SW Radio, Germany, 3975, S7/S9 into UTwente.

Lots of storming today and much-needed heavy rain, so not much

monitoring either direct or online.

Also confirmed Saturday November 2 at 1943 UT on WA0RCR, 1860 AM, MO, S9+17 into nearby SDR, about 5 minutes into so started circa 1938. From next week, 2030v.

Not confirmed Sat Nov 2 at 2300 on WTWW 9475, still off air. Next:

0000 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0500];
2000 UT Sunday IRRS 1323-Italy;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 7570 to NW [or 7780, last 2 weeks];
0030 UT Monday WRMI 7780 to SW;

[USA timeshifts start here]
0400vUT Monday WBCQ Area 51 6160v to WSW;
0930 UT Monday SW Radio, Germany 6160;

1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Tuesday IRRS 1323-Italy;
0030 UT Wednesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2267 monitoring: Not confirmed UT Sunday Nov 3 at 0000 on WRMI 9955. It`s on the air S9+20/25 into Georgia SDR and also into Brasília, from tune-in 2358 Nov 2, but DEAD AIR until finally turned off at 0033* Nov 3. I notified Jeff immediately about this but no response. From next week: nominally at 0100 UT.

Confirmed UT Sunday November 3 at 0230 on WRN North America stream, as timeshifted.

Confirmed UT Sunday November 3 starting at 0304 the nominal 0315v on WA0RCR, 1860 AM, MO. From next week: nominal 0415v UT. Next:

2000 UT Sunday IRRS 1323-Italy;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 7570 to NW [or 7780, last 2 weeks];
0030 UT Monday WRMI 7780 to SW;

[USA timeshifts start here]
0400vUT Monday WBCQ Area 51 6160v to WSW;
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Tuesday IRRS 1323-Italy;
0030 UT Wednesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2267 monitoring: confirmed Sunday November 3 at 2001 on IRRS via AM Italia, 1322.995+, S9 but noisy into UTwente.

Also confirmed Sunday November 3 at 2230 on SW Radio, Germany, 3975.003+, S8/S9 into UTwente.

Also confirmed Sunday November 3 at 2330 on WRMI-13 7780, S9/+10 but noisy into Georgia SDR, for the third week instead of scheduled 7570 WRMI-11, transmitter/antenna still not recovered following H. Milton - yet the WRMI skedgrid ignores such `temporary` measures. Must also apply to all other ``7570`` programming at least during this hour.

Also confirmed UT Monday November 4 at 0030 on WRMI 7780, VG S9/+15 into NA5C south Texas SDR, as long scheduled here.

Also confirmed UT Monday November 4 at 0404, probably from 0400, on Area 51 via WBCQ 6160 -69 Hz = 6159.931, S7/9+5 into NH SDR.

Also confirmed Monday November 4 at 2058 the 2030 on SW Radio, Germany, 3975.002+, S9/+5 into UTwente. Next:

0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Tuesday IRRS 1323-Italy;
0030 UT Wednesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2267 monitoring: confirmed UT Tuesday Nov 5 at 0330 on WRMI 7780, S9/+15 into south TX SDR.

Not confirmed Tue Nov 5 at 1425 the 1400 on WRMI 9955, since there is NO signal direct, while always stronger 9395 is a JBA carrier. Did anyone hear it?

Confirmed Tuesday November 5 at 1516 the 1500 on WRMI 9955, S9+10/20 into Georgia SDR; at 1500 direct it was a JBA carrier.

Confirmed Tuesday November 5 at 2100 on IRRS via AM Italia, 1322.996+, S9+7 into UTwente. Next:

0030 UT Wednesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2267 monitoring: confirmed UT Wednesday November 6 at 0030 on SW Radio, Germany, 3975.003+, S8/9+5 into UTwente.

Also confirmed UT Wednesday November 6 at 0030 on WRMI 9395, S9+20/35 into Georgia SDR.

Also confirmed Wednesday November 6 at 2030 on SW Radio, Germany, 3975.005-, S8/9+5 into UTwente.

Also confirmed Wednesday November 6 at 2200 on WBCQ 7490 -70 Hz,
S9+10/20 into NH SDR. Next:

0130 UT Thursday WRMI 5010 to S; {confirmed}
1730 UT Thursday SW Radio, Germany 3975.

** U S A [and non]. WRMI on 5800 & 9490: see CUBA [and non]

** U S A. Pre-`AAAWWW` check of WBCQs Fri Nov 1 at 2344 into NH SDR:
3265 still off. 5130 -77 Hz = 5129.923 reactivated! at last with
`all-*rump-all-the-time` at least for a bit. 6160 -71 Hz = 6159.929
with TOMBS. 7490 -69 Hz = 7489.931 with FKB preacher. At 0000 Nov 2,
5130 still *rump but 7490 has already started `WTO` theme; quick check
back to 5130, now it`s joined. The B in WBCQ means ``better get out
and vote`` [we just did Early today, line was 30-40 minutes long].
This one is new and live from Fla, on 1 November, YOOLF 2024, 4 days
before elexion. Starts talking about VU meters, microphoniums [Latin
101: plural of microphonium is microphonia, neuter, don`t you know?]
By 0007 they are both yelling about politix. I can`t/won`t put myself
thru their extreme delusions again. At 0040 says simulcasting on 7490
& 5130. 0044 reads items from an old Free Radio Weekly as a new one
has uncome [only one of the rotating editors gets it out promptly
after the 00 UT Sat deadline]. 0058 prays for restoring *rump [since
God is democratic, how is the prayer-vote going?] 0100 join Hal Turner
almost on time; and 5130 is back to `ATATT`, not turned back off yet
(Glenn Hauser, OK, WOR) {did he say anything about the fire destroying
half a megadollar of his antique car collexion, when I was tuned out?}

** U S A. 4840, UT Sun Nov 3 at 0315, WWCR with ``Roll out the barrels
of beer`` theme, and Don`t You Believe: another Australian DX Report
with Bob Padula. Yet another FOUR-YEAR-OLD one, and he sounds rather
ill. Starts out with IPS prop info from depth rather than height of
solar cycle! 10.7 cm flux 97, SSN 44. Out-of-date routine logs this
time are from unspecified ``European monitors``, not himself. Finishes
in time for fill with more nonsense, `Creation Moment`. WWCR still
rendering tremendous disservice to listeners, doesn`t know or doesn`t
care that this is old stuff. Makes me wonder if BP himself be
routinely uploading 4-year-old recordings to them every week? He might
have lost track of which year this is (Glenn Hauser, OK, WOR)

** U S A. After hearing *rump on SW from SPAIN, q.v., a quick scan
across the MW band at 0741-0743 UT Nov 6, before dozing, hears him on
these frequencies, many but not all major talkradio stations whose
identity should be obvious. Maybe via `Red Eye Radio` program, or a
special feed from Fox `news`, live but quite out of synch with each
other: 560, 700, 710, 720, 760, 780, 840, 850, 870, 880, 1120, 1150;
as it seems that `C2CAM` was still showing on some other stations.
Retch (Glenn Hauser, OK, WOR)

** U S A. [WOR] Donald Trump Has Threatened to Shut Down Broadcasters,
But Can He?
"...[T]he President, if he deems it necessary in the interest of
national security or defense, may suspend or amend, for such time as
he may see fit, the rules and regulations applicable to any or all
stations or devices capable of emitting electromagnetic radiations
within the jurisdiction of the United States as prescribed by the
Commission, and may cause the closing of any station for radio

communication."...
https://www.brookings.edu/articles/donald-trump-has-threatened-to-shut-down-broadcasters-but-can-he/
(via Benn Kobb, WOR iog)

** VANUATU. 9960, Oct 31 at 0640, R.Vanuatu still here, S6/S8 direct (Glenn Hauser, OK, WOR)

** VANUATU. 9960 & 7260, Nov 1 at 0653, R. Vanuatu missing again from main frequencies. Earlier at 0413, Ron Howard told me, `` Nov 1, I'm not hearing R. Vanuatu on 2485, 3945, 5040, 7260 nor 9960, via NZ remote SDR; checking 0400+ UT. Ron`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9955, Oct 31 at 1850, JBA carrier direct: could it be WRMI exciter on? Normally in a break now, A24 and B24, and nothing else listed on 9955. Or trace of a jammer against nothing? (Glenn Hauser, OK, WOR)

THE TINY TRAP

Denmark is ``tiny`` says intro to CBS 60 Minutes about that giant of pharmaceuticals, 0039 UT Nov 4. Standard derision.
